If a registered model also qualifies to be in a theme (see theme descriptions on page 1 and Rule 13) the builder can register said model(s) in its appropriate category(ies) plus check off the Catch '22 box and/or the Heller box on the registration form. Then the model(s) will be judged for both category and theme(s). If the theme box(es) are not checked, then the model(s) will only be judged within the registered category(ies). For all theme models, documentation must be with the model.
